murder of his mistress, Anna Szimon, together with the accompanying appeal of Boitcheff's accomplice, Novelitch, at the time of the murder prefect of police, has been rejected, and the original sentences of death passed upon both have been confirmed.

Ruined by Women, Politics and Money. MILLVILLE, N. J., Jan. 26.-Failing to get the appointment of postmaster of Newport or that of doorkeeper of the house of assembly, Charles Hines of Newport committed suicide by sending two bullets through his head. He left a note, stating women, politics and money ruined him.

Injured In Driving Accident.

NEW ROCHELLE, N. Y., Jan. 26 .-Mr. and Mrs. Henry Loomis Nelson and their coachman, Bernard Campbell, were badly injured last night by the upsetting of the coach. Their vehicle went into a trench at the side of the road, and all three were thrown to the bottom, receiving serious, though not fatal, injuries.

Mrs. Ketcham Sned by Her Lawyer. CHICAGO, Jan. 26.-Mrs. Minnie Wal-

Judge Parker's Daughter Married. KINGSTON, N. Y., Jan. 26.-Yesterday Miss Bertha Parker, daughter of Chief Judge and Mrs. Alton B. Parker, was married to the Rev. Charles Mercer Hall, rector of the Church of the Holy Cross. The ceremony was performed by Bishop Henry C. Potter, assisted by Bishop William Croswell Doane of Albany. Among those present were former Senator David B. Hill, Mr. and Mrs. William F. Sheehan, Hon. William C. DeWit of Brooklyn and Judges Patterson and Rumsey of the appellate division. first department.

Says He Was Trapped Into Marriage. NEWARK, N. Y., Jan. 26, - The friends of Orrin Bridger, 88 years old, will probably take steps to annul his marriage to Katherine O'Brien of Clyde. It is asserted that the old man, who is worth about \$500,000, was entrapped into marriage. He says so himself. The ceremony was performed by George Emery of Sodus Point, a former justice of the peace, two weeks ago.

The Thompson-Hanan Affair.

NEWPORT, R. I., Jan. 26.-Mrs. Joseph H. Thompson, Jr., probably will not return to Newport. Her horses and carriages are awaiting orders for shipment, and it was said at the Conkling cottage that she had undoubtedly left Newport for a long time. It is not believed here that Mrs. Thompson's business differences with John H. Hanan will be reopened by her.

Lunatic Attacks His Wife.

MIDDLETOWN, Conn., Jan. 26,-John Ward, aged 60, in a fit of insanity made a savage assault with a club upon his wife at their home in South Farms, The woman had been knocked down by a blow and the man was beating her on the head when a son arrived on the scene and, after a struggle, succeeded in preventing any further injury. Ward then fied, but was later captured biding in a barn. The woman, it is thought, was fatally injured.

With Cubans Aboard.

RUMOR THAT SHE WAS SCUTTLED

Treachery Suspected-Nineteen Rescued by the Schooner Governor Ames. Many Scout the Idea That a Traiter Was on Board.

PROVIDENCE, Jan. 26.—The steamer Tillie, an old freighter on the Central Vermont line, supposedly turned into a Cuban filibuster a short while ago, is at the bottom of the Atlantic with four of her crew. Nineteen survivors were brought here on the five masted schooner Governor Ames, and they have all eluded the federal authorities. It is believed by some of the Cubans that there was a traitor aboard and that the Tillie was scuttled.

The Tillie was under the command of Captain Berry and when she went down had a large number of cases of machinery from Providence. These were taken off, it is alleged, in the lighter Columbia, in Block Island The Columbia later ran into New

London to get 10,000 gallons of fresh water, and this was taken off to the Tillie. Bad weather came on, and all Sunday the Tillie rocked in the trough of a fearful sea that was accompanied by snow, fog and rain. It is alleged the vessel began to leak badiy. This was noticed before the gale began. That is why there are suggestions now from some of the Cubans of crooked work on the-Tillie. Captain Waldemar, of the Governor

Ames says that when 28 miles south by west of Shinnecock he sighted a small two masted steamer flying her colors as a signal of distress. He steered toward the steamer and, watching her through the glass, saw that she was deep in the water and laboring heavily. Soon after he was near enough to make out two boats filled with men just astern of the distressed craft.

The wind was blowing 40 miles an hour, and the sea was fierce. The waves were breaking clear across the Arnes amidships, and Captain Waldemar had his hands full to manage his own ship. However, the Ames' course was changed to bring her as close to the steamer as possible. Two boatloads of men from the foundering steamer commenced to work their way toward the Ames. Lines were thrown to the boats, and these were seized by the men, who jumped overboard, and in that fashion were hauled aboard by the crew of the Ames, one at a time. The rescued said that eight more, including Captain Berry, were still aboard

Captain Waldemar called for volunteers, and Second Mate Nover and Seamen George Green. Peter Nelson, Charles Lindquist and Frank B. Bronz stepped forward. They launched the Ames' largest boat and put off to the Tillie, taking off Captain Berry and three more. The four left aboard were promised that they should be saved as quick as the boat could return to them. The trip back to the Ames was a hard struggle. Darkness began to lower, and as the Ames' five brave volunteers were exhausted it would have been useless to have tried to make another trip.

The mate of the Governor Ames, who claims to have had experience with filibusters, says that there can be no ground for the rumor that traitors aboard the Tillie scuttled the steamer. The men were all eager for one cause. and no one seemed anxious to have the vessel go down.

The way they clung to life showed their feelings. This officer claims that the steamer was not a filibuster, for she was too slow, being only able to make eight knots an hour. She was going to Tampa and from there to the Bahamas, where the cargo and men would be transferred to a speedier vessel, like the Douglas or the Three

The Tillie Considered Unseaworthy. NEW LONDON, Conn., Jan. 26.-The

venerable freight steamer Tillie was well known at this port. Up to three years ago she was used as a Central Vermont Railroad company freighter, plying between New London and New York. Among shipping men here she was considered unseaworthy. The steamer was recently sold by the Central Vermont Railroad company, and at the time it was reported that the McAllister Bros. of Brooklyn were the purchasers.

Defaulted His Ball Last August.

NEW YORK, Jan. 26.-William Gross. 51 years of age, a real estate agent formerly of Philadelphia, who is wanted there to answer a charge of embezzling \$600 from Isaac Fleickstack, also of that city, was arrested last night in Brooklyn. Gross was arrested in Philadelphia in August last, where he was released in \$1,000 bail. He fled, forfeiting his bond, and has since been in hiding. The prisoner will be turned over to the Philadelphia authorities.

Corbett Signs Articles to Fight.

CHICAGO, Jan. 26,-James J. Corbett last night signed articles calling for a fight with Robert Fitzsimmons which George Considine of Detroit is confident he can pull off next summer. The articles are identical with those governing the fight at Carson City, with the exception of the purse, which in this case is \$25,000, as against \$15,000 at Carson City.

HIS CONDITION BAFFLES DOCTORS

Result of an Assault-His Assailant May Have to Face the Charge of Manslaughter-Medicos Say Victim Would Be Better Dead.

NEW YORK, Jan. 26.-The grandjury of the county of New York will be called upon at its next session to consider a case believed to be unprecedented in the history of medicc-legal jurisprudence. A former high city official Marks Schlesinger, who now stands accused of assault in the third degree, will probably be indicted for man-slaughter. He was an inspector of the bureau of incumbrances under the administration of Mayor Strong. His alleged victim is William Scott, now 20 years old, and he has lain unconscious and incapable of motion since Oct. 23,

The case has attracted the attention of medical men throughout the country, although it has been given but litpublicity. Yesterday it attracted the attention of Recorder Goff, who ordered the district attorney's office to present the facts in the case to the next grand jury, that they might, if they deemed fit, dismiss the indictment now in force against Schlesinger and substitute one of a graver character. There is very little hope that Scott will live. Should he survive, Dr. Wilbur L. Rickard, who has attended him since his injury, says he will be an imbecile, as his brain appears to be completely diseased.

"He is better dead," the physicians who have seen him say, "for the brain is entirely diseased, and should he regain physical health he will be ever an

In the meantime they have made some unusual discoveries of great interest to medical science. Ever since the right side of the body became cataleptic it has been in vain to attempt to disturb the position in which the catalepsy left the head, eyelids, arm and right leg. Dozens of times have the physicians moved the head on the pillow. Like an elastic band springing back to place the head would return to the spot into which it fell 15 months ago. Move the right arm from the abdomen, back it goes. The same with the closed lids, the extended leg. Open the lids and you gaze upon sightless eyes, which are hidden the moment you relax your grasp of the lids.

But take the left leg and lift it to a perpendicular position and it will remain upright until it is lowered by human hands. For hours the left leg thus placed has remained upright, and there has been no change in the pulse, temperature or respiration of the patient,

Within the past few weeks the pulse has become lower, averaging 130, while the temperature has been normal. Three weeks ago the respiration went to 68. but has since remained in the neighborhood of 50. How much the boy weighs is not known, but it is estimated that he probably weighs from 100 to 110

"I have searched in vain for a case paralleling this," said Dr. Rickard last night. "There is not the slightest doubt in my mind, or in that of any one with whom I have consulted, that the boy's condition is solely due to injuries in-flicted by an assault. The fracture of the temporal bone has resulted in complete disease of the brain, and pleurisy was brought about by the injury to the breast. There is absolutely nothing to be done. We cannot trephine, because there is no excuse for such an operation. All we can do is to sustain the action of the heart with drugs, but death, in my opinion, is certain. And it will be better for the boy, better for his friends, if it comes speedily.'

There was no objection to immediate confirmation.

Has Prosperity Come?

WASHINGTON, Jan. 26 .-- Under the parliamentary fiction of discussing the Indian appropriation bill, the house devoted almost the entire day to a polit: ical debate, in which the main question was whether prosperity had come to the country as a result of the advent of the present administration. As the speeches were limited to five minutes each, many members participated, and partisan spirit kept the interest keyed up to a high pitch.

The acrimony which usually characterizes such debates was almost entirely absent, but, although good natured, some hard knocks were given and received. Mr. Smith, the delegate from Arizona, made an attack on the system of educating the Indians, and Mr. Walker moved to strike out the appropriation for the Carlisle school. No vote was taken on the motion.

The Teller Resolution Causes United States Battleship In

Captain Sigsbee Pays Some Official Visits. Spanish and German Officers Call on Him-The Maine's Sailors

Not to Go Ashore

HAVANA, Jan. 26.-The United States battleship Maine, commanded by Captain Charles D. Sigsbee, has arrived here and was saluted by the forts and war vessels.

A crowd that seemed to number nearly all the population of Havana flocked down to the waterside when it was announced that the Maine had been sighted from Morro castle. On arriving in the narrow channel abreast of Morro the Maine, in accordance with the usual international courtesy, ran the Spanish royal ensign to her foremast top, and her big batteries roared a salute of 21 guns to the Spanish forts. The cannonade was returned by a deafening welcome of the same number of guns from the Morro castle batteries.

The noise of the saluting, resounding through the city, swelled the throng at the water front. When the Maine dropped anchor in the inner harbor, there was a great rush for positions as near as possible to the American fighting machine.

After the Maine anchored Captain Sigsbee and some of his officers came ashore in a launch for the usual visits of courtesy to the Spanish officials and Consul General Lee. A naval lieutenant of the Spanish

cruiser Alfonso XII, the Spanish flagship, visited the Maine later, as did also an officer of the German cruiser Gneisenau, the schoolship. Both visits were returned by Captain Sigsbee, who called upon Rear Admiral Vicente Manterola at the admiralty office and upon Vice Admiral Pastor, after which he had a prolonged conference with Consul General Lee. The consul general is arranging for a visit by Captain Sigsbee to Acting Captain General Parrado. The sailors of the Maine will not go

ashore at present in order to avoid possible friction, and the United States squadron will remain at the Dry Tortugas or in the vicinity. The Maine came to Havana to receive orders from Consul General Lee and will probably remain here for some time. Captain Sigsbee-expressed himself as much gratified by the reception tendered him and the courtesy and cordiality shown. The Maine bears a peaceful mission. The American newspaper correspondents will give a banquet to Captain Sigsbee, Consul General Lee and a number of Spanish officers.

Spanish Ships to Visit Us.

MADRID, Jan. 26.—The newspapers generally comment upon Secretary Long's explanation of the visit of the United States battleship Maine to Havana and agree in expressing the opinion that her visit is "inopportune and calculated to encourage the insurgents."

It is announced that, "following Washington's example," the Spanish government will "instruct Spanish warzhips to visit a few American ports."

Admiral Chacon, the admiral of the fleet, arrived here and had a long conference with Admiral Bermejo, the minister of marine. He asserted that the recent evolutions had demonstrated the perfect condition of the fleet. The next cabinet council will decide which Amerlean ports the Spanish men-of-war are

The Imparcial expresses fear that the dispatch of the United States battleship Maine to Havana will provoke a conflict, and adds; "Europe cannot doubt America's attitude toward Spain, but the Spanish people, if necessary, will do their duty with honor."

In official circles the tendency is to accept the argument that the United States is friendly and that it is needless to attach importance to the visit of an American vessel to Havana.

Blanco Looking For Peace. HAVANA, via Key West, Jan. 26 .-

The news has spread in town like wildfire that General Blanco has gone to have a conference with General Maximo Comez in order to reach an understanding with the Cuban commander and establish peace in the Island. A DISCOVERY OF GOLD.

in the Mountains in the Neighborhood

was regaled with stories of the discovery of gold in the mountains at a short distance from the site of the big reformatory that is now in course of erection at that place. Recently samples of ore extracted from the mountains by residents of Napanoch

were sent to Washington for assaying, and the results are said to have been most satisfactory, the gold yield from the ore being some three ounces per 100 pounds, and the balance of the ore being

mostly silver and lead. Long ago lead deposits were found about Napanoch, and it is possible that the present alleged discovery of gold

may amount to something. For seven years two residents of the vicinity have been diligently searching for gold deposits in the mountains around their homes, and at last they have been successful. The place where the ore was excavated seems to have been abandoned by miners years and years ago, as the place has every evidence of having been worked at some time long since past. Mr. Madden was shown samples of the ore on Saturday.

George and John Gorsline, of Napanoch, and a man named Wood have lately joined the prospectors, and they, like their companions, are confident of success. An Ellenville man has agreed to put \$1,000 in the work of developing the gold resources of this part of Ulster county, and there are said to be others who are simply waiting for further developments before they offer to put up the necessary capital to start the gold industry in earnest.

O. AND W.'S CHICAGO LIMITED.

The New and Finely Appointed Train is Proving Very Popular.

Not long since, the Ontario and Western, in connection with the Wabash Railroad, established a new train. "The Chicago Limited," leaving New York at 6:15 p. m., passing here at 8.45 p.m. and arriving at Chicago at 9:30 p. m. the following night. The train is composed of luxurious reclining chair cars (seats free) through without charge, together with latest pattern Pullman buffet sleeping and elegant day coaches, which run between New York and Niagara Falls, and has attracted such a large patronage that the companies have found it necessarv oftentimes to run the east bound train in two sections. If you have occasion to go west you should try this train and be convinced of its superiority.

TRAFFICKING IN POST OFFICES.

The Stories That Are Current in a Dutchess County Town.

Millerton, Dutchess county, is all torn up in a scramble for the post office and havoc is being played with several reputations by the stories that are current in the village. Another is that another candidate was told that if he furnished certain articles of merchandise to certain parties he "would come pretty nearlanding in the office."

-It is surprising that the people of Matteawan should object to their children's learning to dissect cats. One would think that if there were any one thing more than another that would be a useful and agreeable accomplishment for the youth of our land it would be this. The tendency of children, especially boys, is an inclination toward over tenderness in their treatment of cats, dogs, and "other small deer;" and it is as well that this should be corrected before it becomes a settled habit; the chloroforming and dissecting of such live stock, would seem to be a step in the right direction. Then, it would be likely to correct any weakness of the stomach. The child, or grown person for that matter, who can look unmoved upon portions of the internal economy of a feline, displayed in a pan of water, is in a fair way never to suffer from sea sickness or similar disorders. Let us hope that the eyes of the Matteawan parents may be opened in regard to the educational advantages thus offered their children, and that the sight of their offspring, innocently employed in carving up the smaller domestic animals, may yet prove a pleasure to them. Think of what a resource to a busy mother on a rainy day when the baby is fretful and Johnny pesters her with the ever-recurring question: "What shall I do new, mamma?" to be able to reply, "Oh! just run down stairs and bring up the cat and dissect it. It may amuse the baby to look at its heart and laugs." Porder these things, oh mothers oī Matteawan, and repent of your

'squeamishness.' -There is one thing that is calculated to trouble the average citizen greatly, and that is the fact that there are so many \$100 bills in circulation. At least the newspapers say that such is the case. It is a very anxious moment for us all, when we sit down at the close of our day's work, with a large sheaf of \$100 bills in our hands and wonder if they are all likely to turn out well.

CATARRH OF THE STOMACH.

A Pleasant Simple, But Safe Effectual Catarrh of the stomach has long been

considered the next thing to incurable, The usual symptoms are a full or

bloating sensation after eating, accompanied sometimes with sour or wateryrisings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headache, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, throughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have dis-

According to Dr. Harlanson the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin a little Nux, Golden Seal

These Tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine' can be used with perfect safety and assurance that healthly appetite and through digestion will follow their regular use after meals.

Mr. N. J. Boober of 2710 Dearburn St., Chicago, Ill., wrîtes: "Catarrh îs a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom, passing backward into the throat, reaches the stomach, thus producing catarrh of the stomach. Medical authorities prercribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling."

I have found flesh, appetite and sound rest from their use.

"Lou" Payn is understood to be advising with Gov. Black as to the details of the primary election bill that is to purify Republican politics. Payn in the role of political purist hasn't been equalled since the ass masqueraded in the lion's skin.

The State Agricultural Society at its meeting last week discussed the question "What is the best attraction at county fairs?" The answers by county delegates showed that all sorts of schemes had been tried to attract people. Horse races are the main reliance but Chemung county had found the "Midway Dance" a great success; Wayne county had tried a lumber wagon race and found it lots offun; public marriages had been successful in some cases and one county reported that a colored baby show had drawn crowds to its fair. Strange to say no county reported having tried the drawing powers of a fair that was really worth seeing.

It has been broadly intimated by certain prominent Republicans that the bill amending the city charter so as to make the excise fund available for the payment of the high school indebtedness will never become a law. According to these boasters the measure is not to be considered on its merits but is to be killed by the Republican majority in the Legislature because it originated with Mayor Mance. There is scarcely a possibility that an attempt to deleat the proposed measure of relief for the oppressed taxpayers will succeed, but that such a scheme has been tilked of only shows that the "old gang" has lost its wits and needs more of the chastening that it recerved last full.

The people of this State will not be satisfied with any investigation of the cinal improvement reandal that does not go to the root of the matter. They look with well foun led suspicion on Gov. Black's attempt to keep the investigadion in his own hands, for they realize that the squandering of the \$9,000,000 appropriation having taken place under his administration he has a personal inteest in covering up the imquitous steal. The commission of investigation proposed by the Democrats is composed of three Republicans and two Democrats, all men of such high standing and character and recognized ability and fitness that it is difficult to see how the Republicans date reject them. They are: Hon, Benjamin F. Tracy, ex-secretary of the navy, Hon. George B. Sloan, of Oswego, ex-Mayor Schieren, of Brooklyn, Hon, Robert Earl, former chief justice of the Court of Appeals and Spencer Chaton, of Buffalo, a direct descendant of DeWitt Chuton, the father of the Etiecanal project. Gov. Black cannot possibly improve on this commission and it these names are rejected and the bill vesting the appointment of investigators in the Governor is jummed through, it will | be notice that the investigation is not to investigate but to whitewash, and the Governor's appointees, no matter who they mry be, will be discredited in ad-

Erle No. 8 Struck and Killed a Man Who Was Walking in the Bladeng Storm, Tuesday Night.

Erie No. 8, due to leave here at 5:55 o. m., was running an hour and fifteen train descended the "Hogba. " near Howells, the headlight of the engine showed a man walking abead unconceruek but a few yards away. The engineer pulled the whistle cord and reversed his engine.

He was too late. The man was struck and knocked twenty feet into the snow beside the tracks. He did not move, and when the engineer backed his train to the point where the accident occurred the body lay in a heap, bones being and when they crossed over to the Demabroken promiscuously, and death must have been instantaneous.

The body was picked up and taken to the tower at the "Hogback" and No. 8 continued to this city, reaching here one hour and a half late.

Train 22, the local train following No. 8, had orders to pick up the body but the engineer and fireman failed to find it lying along the tracks where they supposed it would be found.

The coroner was notified and he went orders for a freight train to stop at the tower for the body. He returned to this which was placed on the pilot of the engine. It was removed to Rockafellow's morgue where it had not been identified at the present writing.

The deceased was sandy-haired, same colored moustache, blue eyes, medium height, weight about 145 pounds, and his hands indicated that he was a farm laborer. He wore a butterout colored overcoat, with large round buttons, dark coat and trousers, overalls, flannel shirt, cap, coogress gaiters and had a strap around his waist.

LANCELOT LODGE'S RECEPTION.

Knights of Pythias and Their Ladies Spent a Very Pleasant Evening,

The second of Lancelot Lodge's popular entertainments was given at its Castle Hall, Tuesday night, and those night last week were found two days who attended were greeted with the usual storm. About one hundred Knights and ladies were out, and they had a grand time indeed. Cards were played in the early part of the evening, then journed to the banquet ball, where a corps of cooks and waiters under the leadership of Chef John T. Robertson, P. C, served oysters in every style to suit the most epicurean taste.

The affair did not break up until a late hour, and the committee in charge received many compliments. The committermen were: J. J. Cox, chairman, William Remson, A. H. Reed, I. W. Eilis. H. Birtwhistle and J. K. Evans.

The next entertainment occurs Feb. 22 and is the lodge's anniversary. The committee in charge 1s composed of F. | One Day Solitary W. Brown, chairman, M. Bartholomew, M. J. Comfort Geo. Pierson, M. B. Van Fleet and J. T. Robertson.

The lodge on this occasion expects to entertain delegations from Chester. Goshen, Port Jervis and other lodges in

WARWICK'S VIGILANT OFFICERS.

Spotted Two Hogan Bolter Employes as auspicious Characters and Dogged Them About That Vidage.

Two Middletown mechanics are prepared to certify that Warwick's guardians minutes late, Tuesday Light, in the face of the peace have been extra vigilant of the blinding snow storm. As the | since burglars raided the village post office, blew open the safe, rifled it of its contents and rode triumphantly out of town on a hand car that they had in waiting.

The mechanics in question, employes of the Hogan Boiler Co., left bere a few afternoons ago on Erie train 30, to go to Warwick to do some work on the Hogan boiler, which is being installed for the Warwick Electric Light Company. They reached Warwick about 6 o'clock, rest House noticed that a man followed. After supper they left the hotel and went up street to call on an acquaintance, and this time they noticed that two men were following them. When they started pack to the hotel the men again dogged their steps. The Middletowners thought this rather peculiar, but did not think that they were regarded as suspicious characters, until the hotelelerk told them that the local Hawkshaws had been making inquiries concerning them. Later to the scene at 915 and finally secured in the evening one of the village officers dropped into the hotel and made the ac quaintance of the Middletowners, who city about I o'clock with the body guyed him on his supposed burglar hunt. To the Young Face mi's Complexion Powner gives fresher harms; to the old, renewed youth. Try it. ANAMAN IS HIS FORTE.

Chicago Youngster Amazes Doctors by His Learning.

His knowledge Is So Accurate That, Although But Five Years of Age, He Has Reen Accorded Digh Honors.

Little Willie Gwin, of Chicago, is the only child who holds a certificate of proficiency in anatomy from professors or recognized medical colleges. Though scarcely five years of age and no taller than a table, this little tot is perfectly familiar with the human skeleton and the work of the dissecting room. In fact, he has witnessed nearly every capital operation known to surgery in the New York, Louisville, New Orleans and Chicago hospitals.

The youngster is a marvel of precocity, and knows every bone in the human body as well as does a medical student at his final examination. That is not all. He can tell you with equal ease and accuracy everything that is to be known about the heart structure and its complex functions.

Little Willie Gwin has been in Chicago about a year. His father, Howell B. Gwin, M. D., is a physician, who about that time located there. To his professional brethren in Chicago he introduced the tot and surprised them on several occasions by asking them to question the child about anatomy of the human body. It was then the little fellow became a pronounced sensation, for he made his wise questioners and hearers open their eyes and marvel that so small a head could carry and accurately tell all about osteology, and, in fact, about the various systems of the human body. He is already the talk of medical circles.

As an evidence of the little fellow's self-possession in a dissecting room and the interest he manifests in a "subject" Dr. Gwin took him to the morgue in New Orleans. A dead man had just

WILLIE GWIN.

(The Youngest Doctor in the World.) been brought in, having been killed by a trolley car. The body was mangled badly. The frontal bone had been crushed in, as well as the superior maxillary and molar, the nasal bone being broken and twisted awry. The depression was large enough to lay the hand in. Willie was taken to the table on which the stripped body lay, and became at once absorbed in examining the face wound. Like a surgeon of years' experience he leaned over the body and examined the injuries, lifting up a bone here and pressing the frontal and maxillary there. Completing the diagnosis, this tot of then four years was asked by the father the extent of the injuries. To this he readily *plied, explaining each bone crushed and its location. The father then, with a scalpel, made an incision behind the eg and demonstrated, by exposing the main artery, nerve and vein, the functions of the same. The child saw and to this day can tell all about it, augmenting it, however, with other knowledge in connection learned since by practical demonstration.

Willie Gwin has two certificates of proficiency in anatomy. One was given nm by Prof. Edmond Southon, of the chair of anatomy, Tulane university. New Orleans. Prof. Southon examined the child and certified that he found him the most thorough anatomist of his age in osteology and conformation of the heart.

Another certificate was given him by P. Richard Taylor, M. D., dean of the Hospital college, of Louisville, after a careful examination upon the osseous system and heart. He certifies that he found Willie the most thoroughly posted child he ever saw or read of, and believes him to be the youngest anatomist in the world, being only 51/2

The father, Dr. Gwin, told how the lad came to know so much about anatomy, and it appears that interest in and acquisition of his knowledge originated rather accidentally. "In romping on the bed with him,"

said the father, "not further back than when he was three years old, I used to amuse him by telling him some difficult names of bones in the body and taunt him with being unable to repeat them. He very rapidly caught the words and, strangely enough, retained them without any apparent effort. He then began to associate the names of the bones and their location, and it was not long before he displayed a considerable knowledge of anatomy. He knew the bones and could describe their exact location, not parrot fashion, as you have observed, for it matters not where you locate a bone, he knows its name, and it matters not what name you call he can point out and describe the bone's location.

"One day he happened in the office of a physician friend of mine, who was much interested in the tot's remarkable acquirements and, more in jest than in carnest, brought out a piece of the human skull and asked the child what it was. It was separated from its adjoining parts in a manner the boy had not seen before, but, studying it a moment, he told its scientific name correctly, to my friend's astonishment."

When a woman good health sh can stand a great deal of hard work without serious fatique or injury. When a woman is ill and still spurs herself on to work, work, work, from morning till night, she is doing berself grave injury, and sooner or later must pay the penalty. A woman under these

circumstances is working under the lash of death. If a woman will always take proper care of the health and strength of her distinetly womanly-self, she is pretty sure to be in good general health. Too few doctors understand this, and consequently attribute the troubles of which women complain to br. Pierce's Favorite Prescription is a

marvelous medicine for women. It acts directly on the delicate and important organs that make wifehood and motherhood possible. It makes them healthy and vig-orous. It allays inflammation, soothes pain and heals ulceration. It tones the nerves and makes a woman feel bright, happy and amiable. It does away with the discomforts of the critical period and makes baby's advent easy and almost painless. No honest dealer will urge an inferior substitute for a little extra profit. The sale of "Favorite. a little extra profit. The sale of "Favorile Prescription" exceeds the combined sales of all other medicines for women.

Dr. Pierce's If constipation was painful like a toothache, sickness would to a very great extent be a thing of the past. If it was painful, the proper remedy would be promptly resorted to, and the long train of disorders for which it is responsible would cease to exist. But unfortunately constipation is the exciset to perwhich it is responsible would cease to exist. But unfortunately constipation is the easiest to neglect of all sickness-breeding conditions. A resort to the right remedy is put off from day to day. It shows itself in a headache, and some injurious headache powder that gives but temporary relief is used. Dr. Pierce's Pleasant Pellets go to the first cause of the trouble and cure it. They are a prompt and permanent cure for constipation. They cause no pain and never gripe. Druggists sell them and sell nothing else that is "just as good."

Dr. Miles' Heart Cure

R. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: 'I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much parent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle Fleart Cure beneats or money refunded. Book on diseases of the heart and nerves free, Addre s.

SIR WILLIAM HARCOURT.

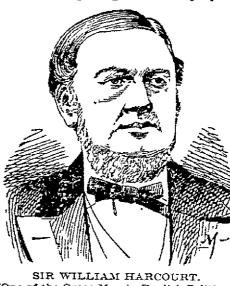

The Best Fighter Among England's Liberal Leaders.

His Success as a Tactician and Party Chief Has Been Conspicuous-lins a Sledge-Rammer Method of Arguing.

Sir William Harcourt is the son of a clergyman and the grandson of an archbishop, but he is not a preacher among politicians. He has the manuer of an old-school lawyer, and he comes naturally by it, for he was trained for the bar after a successful university career at Cambridge, and not only practiced for many years, but was also sollcitor-general, one of the chief law officials of the crown. He was professor of international law at Cambridge, and was one of the best-known contributors to the Saturday Review and the Times.

It has been neither as a lawyer nor as a journalist that Sir William Harcourt has made the deepest impression in English public life. It has been his distinction to introduce as chancellor of the exchequer what is known as a radical budget, equalizing death or estate duties on real and personal property, and enlarging the revenues by the application of democratic principles, He has also been the best fighter among liberal leaders since Mr. Gladstone's retirement.

His triumph as a financier came when his political opponents, after fiercely condemning his budget as socialistic, and little better than a system of organized robbery, allowed it to stand when they succeeded in power and testified to its working efficiency. His success as a tactician and party leader in the commons has been equally conspicuous. In the last parliament he led with remarkable adroitness a government with a weak majority behind it, and during the present parliament he has done wonders with a feeble opposition, compelling the ministry a year

(One of the Great Men in English Politics.)

ago to abandon its chief measure dealing with education, and commanding respect by his keenness as a tactician and by his fighting power.

Sir William Harcourt is now a veteran of 70. He is a giant in stature, says the Youth's Companion, with a big, burly frame and a far-reaching, resonant voice. In the commons he speaks ordinarily in conversational tones, and merely deepens his voice and becomes more stately and pompous in manner when he wishes to be impressive. On a popular platform he has a sledgehammer method of pulverizing the arguments of his opponents. Instead of defending the position of his own party he assumes it to be impregnable and boldly attacks his friends, the enemy. with contemptuous ridicule and merciless satire.

Sir William Harcourt and Mr. Chamberlain are the two fighting men in English politics, with a difference of ten years in their ages. If one has a more explosive temper and larger resources of humor, the other is more courteous in manner and more destructive in argument. Each loves political strife, and is convinced that whoever fights with all his heart has the hest chance of victory. Mr. Chamberlain is the more fluent debater and the clearer thinker, but Harcourt is the better advocate and the more brilliant tactician.

Usefulness of Reindeer.

The useful qualities of the reindeer are thus described in the report of Commissioner Harris: "Providence seems to have adapted the reindeer to the peculiar conditions of arctic life and made him at once the best helper to man in the transportation of supplies, the surest source of animal food and the producer of the warmest clothing. Ilis horns and hoofs furnish the best material for the making of glue; his hair, on account of its extreme lightness, is the best for use in the construction of life-saving apparatus, and he also furnishes the possibilities for large and wealth-producing indus-

A Greedy Little Fish. The little fish known as miller's

thumb-the fresh water sculpin-is one of the natural checks on the overproduction of trout and salmon. It eatsthe eggs and the young fish. It is found in all trout waters as fast as examined. It is very destructive. At an experiment once made in the aquarium of the United States fish commission, in Washington, a miller's thumb about four and a half inches long ate at a single meal, and all within a minute or two, 21 little trout, each from three-quarters of an inch to an inch in length.

Impenitence. Indignant Uncle-I'll cut you off with shilling, you young rascal.

Unrepentant Nephew-Do you mind letting me have the shilling now, uncle? -Pick-Me-Up.

DOINGS OF THE 24TH.

Warranted a Corporas— ethicite Tourn= -ament-General McGrath's Visit-O her

-L. F. Wengenroth has received his warrant as corporal and is now a full fledged "non-co n."

-The electric lights went out during the drill, last might, for the first time in several years.

-The athletic tournament will be held Thursday evening, February 34. Some very interesting events will take place, the competition being open to members of the company only. The three-legged wace, the chariot race and the obstacle Tace are great mirth provokers and will please the spectators.

-The officers and non-commissioned «officers of the 24th will entertain General McGrath at a banquet at Rowley's -after the presentation of the long service medals, Tuesday evening, February 8th.

-The tickets for the concert, badge presentation and dance at the armory. February 8th, are being disposed of rapidly, and it is safe to predict that the record for attendance will be broken.

-The Athletic Association held a regular meeting after the drill, last night. The treasurer reported a comfortable balance on hand.

-Newburgh Y. M. C. A. vs. the 24th at basket ball, to-morrow night. Admission fifteen cents.

-The work of concreting the basement is "held up" by the Ordnance Department at headquarters. The bids made according to specifications were higher than the authorities thought they ought to be and they rejected all bids.

-The Regulars defeated Captain Bannister's "Pick-ups" at basket ball, last night, by a score of 10 to 3. The game was frequently interrupted by the electric lights going out.

THE MIDDLETOWN POST OFFICE.

Machine Men Hear From Congressman odell - Unwelcome Traths Plainly Told.

Within a day or two Congressman Odell has written to severa! prominent organization Republicans in this city, who had sent him earnest appeals to get to his feet in the Middletown post office matter and denaund of the President the nomination of Mr. Robertson.

His answers give but cold comfort to the machine men. Mr. Odell says in effect that it is easy enough in Middletown to talk of "demanding" nominations from the President, but in Washington the point of view is very different. Mr. Odell further says that although the President is a sually guided by the advice of con--gressmen in making post office nominactions, it is not always so. The West Point office is cited as a case in which a congressman's recommendation availed nothing and Mr. Odell mentions a number of cases in which the President went over the heads of congressmen and gave post offices to old soldiers who found more favor in his eyes than in

Mr. Odell, we are also told, intimates wery plantly that he is not responsible for the tangle in Republican politics in Middletown, nor for last fall's humiliating defeat which has dignified the "kickers" in the eyes of the powers that be and made it seem the part of wisdom to give their claims careful consideration.

those of their Representatives.

A Conference that Made Machine Mea Uneasy.

Mayor Mance and Boss Dayton were in earnest conference in front of the Postal Telegraph office, vesterday afternoon Machine men who saw them are still wondering what is going to happen and feel quite relieved because the post-office has not yet dropped into Boss Dayton's open hands.

A STITCH IN TIME SAVES NINE.

Heat, sense of tenderness and swelling of a part, are all indications that there is need of instant repair the stitch in time. Where these symptoms exist on the left or the right side of the womb, disease of the ovary is setting in, and soon there will be, if there is not already established, a discharge, trifling at first, but later copious and irritating. Soon, also, there will be felt dull, dragging pains radiating from

Do not, my sister, let your malady go so far, but those of you who are already suffering in this way should begin at once a course of treatment with Lydia E. Pinkham's Vegetable Compound. It will restore the organs to their normal con-

In this connection Mrs. E. L. Myers, Quakake, Pa., says: "My ovaries were badly diseased, and for almost a year I suffered with se-

vere burning pains which were almost unendurable, and a dull, heavy pain in the lower portion of my back. If standing I was most relieved with my foot resting on a stool or chair. The doctor told me I would have to take my bed and keep quiet. I had not used half a bottle of Lydia E. Pinkham's Vegetable Compound before it worked wonders with me. I now owe my health to the Compound. To those who are suffering from diseases peculiar to women, I would say that Lydia E. Pinkham's Vegetable Compound is just what they need."

Mrs. Pinkham wishes to befriend you, and if you will write her at Lvnn. Mass., telling her just how you feel, she will give you the very best advice free of charge. Think what a privilege it is to be able to write to a woman who is learned in all these matters, and willing to advise you without charge.

MATAMORAS & NEW YORK RAILROAD

Hearing by Rallroad Commissioners on the Application for a Franchise. Railroad Commissioners Dunn and Baker gave a hearing in Port Jervis,

Tuesday, on the application of the Matamoras and New York Railroad Compary, for permission to build a railroad three-quarters of a mile long, from the termination of the Milford, Matamoras and New York Railroad in Matamoras to a point on the westerly side of Pike street in Port Jervis.

The application is opposed by the Erie, which does not want a grade crossing as

is proposed in the survey filed. E. C. Sweezv, the engineer who made the surveys for the proposed road, testified that the only connection the road proposed to make in Port Jervis was with the caual, for the shipment of stone and shale. The cost of the road will be \$66.700 exclusive of rights of way, tunneling, etc.

The Commissioners will announce their decision later.
